1/9/2019 14:03:07	Thomasville Primary School	TCS Faculty/Staff	I support the basic format of the draft calendar but would like to request that the following changes be considered. (please see below)	I think the school day for TPS and LDES should still start at 7:30 instead of 7:40 which give the buses plenty of time to drop off the students at TPS and LDES and pick up the students for the middle and high school. I think we should do the extended time for each day all year long and have days published on the calendar to let parents and staff know what days will be used in advance for make up days. I also believe Saturday school should be only used as last resort for making up days.	I prefer to have published make up days listed on the calendar and followed (these may include a combination of workdays, spring break days, Saturdays and extended time days)	I would like consideration of a different start time (please see comments below)	I think the school day for TPS and LDES should still start at 7:30 instead of 7:40

We should only make up days/time as needed	I would like consideration of a different start time (please see comments below)	I would prefer all schools begin at the same time at 8am (7:40 seems a bit random and doesn't make sense to me why the start time is different at each school)--- so LDES and TPS would start at 8 and end 20 minutes or so later than proposed to accommodate for that. I like that specific make-up days are listed on the calendar.

(please see below)	The extra 15 minutes should be added to lunches or in between class changes. Doing this would significantly increase student and staff morale.	I prefer to have make up time communicated as needed by the school district. We should only make up days/time as needed	I agree with the school hours for students listed on the draft calendar	I agree with the hours as long as they are added to lunch or between classes. (please see below)	I prefer the start/ end times should be 7:15-2:15, as it originally was. I also do not prefer to make up additional times on Saturdays. Lastly, I would like to have all potential make up days scheduled on days that would originally be days off to be communicated to staff prior to them being taken away from us in order for us to plan our breaks/schedules in advance accordingly. 1/17/2019 20:42:51	Liberty Drive Elementary School	TCS Faculty/Staff		I support the basic format of the draft calendar but would like to request that the following changes be considered. (please see below)	I prefer the winter break 1/2 & 1/3 not be make up weather days. The break is needed very much by both staff and students, especially with third quarter not being having a break until spring break. I do like that the 1/3 is an optional day for teachers. That gives staff members a chance to come in and make sure they are truly prepared for the coming weeks. Unfortunately I really don't know when else make up days could be implemented.		I prefer the start and end times used in 2018-2019

(please see below)	Why is there inconsistency with the total school day hours between elementary and middle and high school? The lowers grades have 7 hours or less for the school day while the middle and high school have 7 hours 15 minutes. The additional 15 minutes is not needed. The rest of the calendar looks fabulous.
