

Teaching & Learning/ Academic Updates

August 2022 update

Math Core Resource- Reveal Math

We completed our initial introductory professional development on June 2 implementing Reveal Math. We will have a follow up training on August 17 for our new teachers and those who did not attend the June training. A majority of the resources have already arrived and being delivered to the schools.

LETRS Training

The kick off for LETRS will be August 19 with teachers listening to the introductory video and taking the pre-test. On August 22 they will participate in an all day professional development that is aligned to Unit 1 of their training.

Capturing Kids Hearts

The two day Capturing Kids Hearts training for Thomasville Middle and High School took place August 2 and 3 at Memorial United Methodist Church. The schools have access to the online support/professional development/family connection website as they plan for the upcoming school year.
