

Safe schools are critical to creating a learning environment in which students can succeed. Staff and students share the responsibility for taking reasonable precautions and following established safety measures to create and maintain safe schools. The following safety measures must be implemented at each school.

Temporary Requirements to Prevent COVID-19 Spread

In order to secure the health and safety of school system students and employees during the COVID-19 pandemic, the school system will enforce the requirements of the North Carolina Department of Health and Human Services (DHHS) applicable to individuals entering school grounds and facilities and will adhere to any requirements placed on the school system by DHHS. The superintendent or designee, in conjunction with appropriate health officials, shall develop protocols where necessary to implement DHHS requirements. These temporary requirements shall remain in effect until repealed by the board or until the applicable guidance from DHHS is rescinded, whichever occurs first.

A. SUPERVISION OF STUDENTS

Students must be reasonably supervised while in the care and custody of the school system. This supervision must occur throughout school hours, including during class, between classes, on the playground, and during recess or lunch periods; during authorized school field trips; and on school buses. Reasonable precautions should be taken to protect the safety of students on school grounds and on buses before, during and after school.

Students who are subject to policy 4260, Student Sex Offenders, and are receiving educational services on school property must be supervised by school personnel at all times.

B. SUPERVISION OF VISITORS

School administrators shall strictly enforce policies 5015, School Volunteers, and 5020, Visitors to the Schools.

C. SAFETY OF SCHOOL BUILDINGS AND GROUNDS

The board recognizes its duty to provide each of its employees with a workplace free from recognized hazards that are causing or are likely to cause death or serious physical harm.

The superintendent and each building principal shall comply with all duties set out for their respective positions in G.S. 115C-288(d) and G.S. 115C-525 to minimize fire hazards. The principal is required to inspect school buildings, playgrounds and

equipment for health, fire and safety hazards on a regular basis, as required by law, and to notify the superintendent immediately of unsanitary conditions or repairs needed to meet safety standards.

Any employee who observes any potential hazards must notify the principal or the employee's supervisor immediately.

All warning systems must meet building and equipment codes required by law and must be properly maintained. When necessary, proper signs indicating potential hazards or recommended safety precautions must be posted.

D. ESTABLISHING PROCESSES TO ADDRESS POTENTIAL SAFETY CONCERNS AND EMERGENCIES

1. Responding to Student Altercations and Other Threats to Safety

All school system employees have a duty to be alert at all times to situations that may pose a threat to the safety of students, employees or visitors on school property, at school events or in other situations in which the students are under the authority of school employees. Even an employee who does not have responsibility for supervising students is expected to make an immediate report if the employee observes or has reason to suspect that a situation poses a threat to safety and no administrator, teacher or other supervisory employee is present and aware of the potential threat.

Teachers, teacher assistants, coaches, and other employees with responsibility for supervising students will use appropriate student behavior management techniques to maintain order and discipline on school property, at school events and anywhere that students are under the employees' authority. Such employees must enforce the Code of Student Conduct and address student behavior in accordance with the school plan for management of student behavior (see policy 4302, School Plan for Management of Student Behavior).

When employees with responsibility for supervising students have personal knowledge or actual notice of a student altercation or other situation that poses an immediate threat to safety, they shall use their professional judgment to determine how best to address the situation to protect the safety of everyone in the vicinity. Emergency procedures identified in a student's Behavior Intervention Plan shall be followed to the maximum extent possible under the circumstances. For minor threats or altercations or altercations involving young children, the employee shall intervene directly to end the fight or address the safety threat if the employee can do so safely. An employee who encounters a situation that cannot be managed safely and effectively by that employee immediately shall request assistance from other employees or administrative staff and shall take steps to remove bystanders from the area. Only the degree of force or physical control reasonably necessary shall be used to re-establish a safe environment.

Employees should take further action as appropriate in accordance with any response protocols established by the principal or superintendent. All employees are responsible for knowing and following such protocols to the fullest extent reasonable under the circumstances at the time.

2. School Rules

The principal or designee shall develop rules to help prevent accidents in school buildings, on school buses and on school grounds.

3. Training for Staff and Students

Staff training must include detailed instruction on how to respond to a variety of emergency situations. Staff should also be able to recognize and respond to behavior, information and related indicators that warn of impending problems. In addition, all school employees must receive adequate training on the operation of the school's anonymous safety tip line.

School personnel must teach and review with students (1) safety procedures, including fire safety procedures; (2) precautions for handling chemicals or potentially dangerous equipment; and (3) appropriate responses to threats to school safety. All students must also be informed of the anonymous safety tip line and its purpose and function.

4. Safety Equipment

School employees shall provide students and visitors with safety equipment as required by law and shall enforce school rules pertaining to wearing safety equipment. School employees shall wear and use appropriate safety equipment as required for the safe performance of their specific job assignments.

5. Planning for Emergencies and Conducting Fire Drills and Other Emergency Drills

The board, in coordination with local law enforcement and emergency management agencies, will adopt a school risk management plan relating to incidents of school violence for each school in the school system. The superintendent must provide the Department of Public Safety's Division of Emergency Management (Division) with emergency response information it requests for the school risk management plan and updated emergency response information when such updates are made. The superintendent must also provide the Division and local law enforcement with schematic diagrams, including digital schematic diagrams, of all school facilities and updates of the schematic diagrams when the school system makes substantial facility modifications, such as the addition of new facilities or modifications to doors or windows. Schematic diagrams must meet any standards established by the Department of Public

Instruction for the preparation and content of the diagrams. In addition, the superintendent shall provide local law enforcement with (1) either keys to the main entrance of all school buildings or emergency access to key storage devices for all school buildings and (2) updated access to school buildings when changes are made to the locks of the main entrances or to the key storage devices.

At least one school-wide tabletop exercise and drill that meets the requirements of state law and is based on the procedures documented in the school risk management plan will be held annually at each school. Principals shall also conduct fire drills as required by law.

6. Reporting Risks to the School Population

Students should notify any staff member of any acts of violence, harassment or bullying or any other unusual or suspicious behavior that may endanger safety. All students may also use the anonymous safety tip line to report any risks to the school population or buildings. Ongoing student education efforts will aim at minimizing any fear, peer pressure, embarrassment or other impediments to students reporting potential problems.

Maintaining a safe school environment that is conducive to learning requires staff to be proactive in dealing with violence, harassment and bullying. Staff members must report immediately to the principal any information regarding unusual or suspicious behavior or acts of violence, harassment or bullying.

School officials shall investigate and act upon any report of such behavior, including, when appropriate, reporting criminal activities to law enforcement, the State Board, the State Superintendent of Public Instruction and the superintendent or designee (see policies 1710/4020/7230, Discrimination and Harassment Prohibited by Federal Law, 1725/4035/7236, Title IX Sexual Harassment – Prohibited Conduct and Reporting Process, 1726/4036/7237, Title IX Sexual Harassment Grievance Process, 4040/7310, Staff-Student Relations, 4329/7311, Bullying and Harassing Behavior Prohibited, 4335, Criminal Behavior, and 7232, Discrimination and Harassment in the Workplace).

7. Potential Threats of Registered Sex Offenders

The principal of each school shall register with the North Carolina Sex Offender and Public Protection Registry to receive e-mail notification when a registered sex offender moves within a one-mile radius of the school.

8. Student Behavior Standards

Students are expected to meet behavior standards set forth in board policies.

The board believes a strong relationship exists between the quality of education provided to students and the competency and training of all personnel employed by the school system. The board places a high priority on securing the most competent personnel available and, once they are employed, providing them with opportunities for professional growth and development throughout their careers. The goal of professional and staff development programs and opportunities for licensed professional employees and support staff is to improve the instructional program and create a safe learning environment for all students by improving and expanding the skills of the professional staff and support personnel.

The superintendent shall seek input from employees when developing system-wide programs. The principal shall seek input from school personnel when planning professional and staff development programs for his or her school.

~~Professional and staff development must be provided, at the system or school level, on shall include all topics required by law or board policy, including but not limited to: (1) the effective delivery of the required curriculum- as required by G.S. 115C-81.45(d) and - 81.20(f); (2) a program of technology-related professional development as required by policy 3220, Technology in the Educational Program; and (3) a mental health training program, which includes all components required by G.S. 115C-375.20, G.S. 115C-376.5(d) and State Board of Education Policy SHLT-003 (see policies 4240/7312, Child Abuse and Related Threats to Child Safety, and 6120, Student Health Services). In addition, as required by policy 3220, Technology in the Educational Program, the superintendent shall plan and provide a program of technology related professional development to prepare the instructional staff to integrate technology into the student learning process and to address other relevant issues related to the use of digital tools and resources in the instructional program.~~

B. SELF-IMPROVEMENT

Licensed employees are expected to engage in self-directed activities to improve their professional skills. These employees are encouraged to seek information and training through professional development programs as well as other opportunities in order to meet this responsibility.

C. PLANS FOR GROWTH AND IMPROVEMENT

Supervisors and principals also may require licensed employees to enter into plans, including mandatory improvement plans established by state law and individual, monitored and/or directed growth plans established by the State Board of Education, for

professional growth and improving performance. (See policy 7811, Plans for Growth and Improvement of Licensed Employees.) A performance improvement plan could involve participation in a professional development program or encompass a variety of strategies that are related to professional growth or improving performance.

D. PAYMENT OF COSTS

The school system will consider paying reasonable costs, within budget limits, for any courses, workshops, seminars, conferences, in-service training sessions or other sessions an employee is required to attend by the local administration. The employee must seek prior approval for payments.

DISCRIMINATION AND HARASSMENT PROHIBITED BY FEDERAL LAW

Policy Code: **1710/4020/7230**

The board acknowledges the dignity and worth of all students and employees and strives to create a safe, orderly, caring, and inviting school environment to facilitate student learning and achievement. The board prohibits discrimination on the basis of race, sex, color, national origin, religion, disability or age (~~over 40~~ or older), and will provide equal access to the Boy Scouts and other designated youth groups as required by law.

The board will not tolerate any form of unlawful discrimination or harassment in any of its education activities or programs. All forms of prohibited discrimination and harassment are subject to this policy except the following, for which the board has established more specific policies.

- Discrimination and harassment on the basis of sex is addressed in policy 1720/4030/7235, Title IX Nondiscrimination on the Basis of Sex.
- Discrimination and harassment in employment is addressed in policy 7232, Discrimination and Harassment in the Workplace.

In addition, the process set out in this policy for bringing complaints does not apply to the following.

- Complaints of sexual harassment will be brought in accordance with the processes established in policies 1725/4035/7236, Title IX Sexual Harassment – Prohibited Conduct and Reporting Process, and 1726/4036/7237, Title IX Sexual Harassment Grievance Process.
- Employee allegations of discrimination or harassment will be addressed using the process established in policy 7232, Discrimination and Harassment in the Workplace.
- Allegations regarding or related to the identification, evaluation, educational placement, or free appropriate public education of a student under Section 504 or the IDEA may be raised through the system of procedural safeguards established under policy 1730/4022/7231, Nondiscrimination on the Basis of Disabilities, (for Section 504 complaints) or in accordance with the procedures described in *Parents Rights & Responsibilities in Special Education*, published by the NC Department of Public Instruction (for IDEA complaints).

The board takes seriously all reports of unlawful discrimination and harassment and directs school officials to take prompt action to investigate and remedy violations of this policy. The superintendent is responsible for providing effective notice of this policy to students, parents, and employees.

The board encourages students, visitors and other non-employee individuals who believe that they

may have been discriminated against or harassed in violation of this policy, (including on the basis of disability, as specified in policy 1730/4022/7231, Nondiscrimination on the Basis of Disabilities), to report such conduct as soon as possible through the process provided in Section B of this policy. Employees who believe that they may have been discriminated against or harassed should report through the process provided in policy 7232, Discrimination and Harassment in the Workplace. Individuals who have witnessed or who have reliable information that another person has been subject to unlawful discrimination or harassment may report the conduct to an individual designated in Section B of this policy.

Any report made through the process established in this policy may be made anonymously, except mandatory employee reports.

A. PROHIBITED BEHAVIOR

Students, school system employees, volunteers, and visitors are expected to behave in a civil and respectful manner. The board expressly prohibits unlawful discrimination and harassment as defined below by students, employees, board members, volunteers or visitors. “Visitors” includes parents and other family members and individuals from the community, as well as vendors, contractors and other persons doing business with or performing services for the school system.

1. Discrimination

Discrimination is any act or failure to act, whether intentional or unintentional, by an employee or agent of the school system that unreasonably and unfavorably differentiates treatment of others based solely on their membership in a legally-protected class so as to interfere with or limit their ability to participate in or benefit from the services, activities, or privileges offered by the school system’s education program. For purposes of this policy, the legally protected classes are race, color, national origin, religion and disability.

2. Harassment

Prohibited harassment is deliberate unwelcome conduct directed at another person or group of persons based on their membership in a legally protected class that creates a hostile environment. Harassment does not have to include intent to harm, be directed at a specific target, or involve repeated incidents. Harassment creates a hostile environment when the conduct is sufficiently severe, pervasive, or persistent so as to interfere with or limit a person’s ability to participate in or benefit from the services, activities or opportunities offered by the school system.

Examples of behavior that may constitute harassment include, but are not limited to, acts of disrespect, intimidation, or threats, such as verbal taunts, name-calling and put-downs, epithets, derogatory comments or slurs, exclusion from peer groups, extortion of money or possessions, implied or stated threats, assault, impeding or blocking movement, offensive touching or any physical interference

with normal work or movement, and visual insults, such as derogatory posters or cartoons. Harassment may occur through electronic means, such as through the Internet, email, or text message. Legitimate age-appropriate pedagogical techniques are not considered harassment.

3. Application of the Policy

This policy applies to behavior that takes place: (1) in any school building or on any school premises before, during, or after school hours; (2) on any bus or other vehicle as part of any school activity; (3) at any bus stop; (4) during any school-sponsored activity or extracurricular activity; (5) at any time or place when the individual is subject to the authority of school personnel; or (6) at any time or place when the behavior has a direct and immediate effect on maintaining order and discipline in the schools.

This policy will not be construed to allow school officials to punish student expression or speech based on undifferentiated fear or apprehension of a disturbance or out of a desire to avoid the discomfort and unpleasantness that may accompany an unpopular viewpoint.

B. REPORTING DISCRIMINATION OR HARASSMENT

1. Any person who believes that he or she has been discriminated against or harassed in violation of this policy by any student, employee, or other person under the supervision and control of the school system, or any third person who knows or suspects conduct that may constitute discrimination or harassment should inform a school official designated in Section C below. Reports also may be made anonymously through the anonymous tip line.

2. Mandatory Reporting by School Employees

Any employee who witnessed or who has reliable information or reason to believe that a student or other individual may have been discriminated against or harassed in violation of this policy must report the offense immediately to an appropriate individual designated in Section C below. Any doubt about whether particular conduct is possible discrimination or harassment under this policy or any other policy of the board must be resolved in favor of reporting the conduct.

Employees who observe an incident of harassment are expected to intervene to stop the conduct in situations in which they have supervisory control over the perpetrator and it is safe to do so. If an employee knows of an incident involving discrimination or harassment and the employee fails to report the conduct or take proper action or knowingly provides false information in regard to the incident, the employee will be subject to disciplinary action up to, and including, dismissal.

3. Preliminary Inquiry

School officials may make a preliminary inquiry when a report is received to understand what occurred and to determine whether further action under this policy or otherwise is necessary.

C. COMPLAINTS OF DISCRIMINATION AND HARASSMENT

1. A student, visitor, or other non-employee individual who believes he or she is the victim of unlawful discrimination or harassment in violation of this policy, or any person who has witnessed or who has reliable information that another person has been subject to unlawful discrimination or harassment under this policy, may make a formal written complaint to any of the following persons:
 - a. the principal or assistant principal of the school at which either the alleged victim or alleged perpetrator attends or is employed;
 - b. the Section 504 coordinator or the ADA coordinator for claims of discrimination on the basis of a disability; or
 - c. for claims of other forms of prohibited discrimination, the applicable civil rights coordinator as established in Section I of this policy.

If a written complaint alleges that the perpetrator is an employee, the school official receiving the complaint shall notify the senior human resources official without delay.

2. A written complaint alleging that a student has been discriminated against or harassed will be addressed in accordance with this policy.

A written complaint alleging that an employee has been discriminated against or harassed will be addressed in accordance with policy 7232, Discrimination and Harassment in the Workplace.

A written complaint alleging that person who is not a student or employee has been discriminated against or harassed will be addressed in accordance with the general process for resolving complaints provided in policy 1742/5060, Responding to Complaints, not this policy.

3. Time Period for Making a Complaint

Alleged discrimination or harassment should be reported as soon as possible but no later than 30 days after disclosure or discovery of the facts giving rise to the complaint. Complaints submitted after the 30-day period may be investigated; however, individuals should recognize that delays in reporting may significantly impair the ability of school officials to investigate and respond to such complaints.

D. SCHOOL OFFICIALS' RESPONSE TO REPORTS AND COMPLAINTS OF DISCRIMINATION OR HARASSMENT

1. Investigation

School officials shall investigate all formal written complaints received. Reports of discrimination or harassment that are not followed by a formal written complaint may be investigated at the discretion of school officials and may be investigated even if the alleged victim does not seek action by school officials.

- a. The principal or designee or site supervisor will be the investigator when the alleged perpetrator is a student or third party. The senior human resources official or designee will be the investigator when the alleged perpetrator is an employee. The superintendent may determine that individual circumstances warrant the assignment of a different investigator.

Notwithstanding the above designations, (1) if the alleged perpetrator is the senior human resources official, the superintendent will be the investigator, and (2) if the alleged perpetrator is the superintendent or a member of the board, the board chair shall direct the board attorney to investigate, unless the board chair determines that outside counsel should be engaged to investigate.

- b. As applicable, the investigator shall immediately notify the Section 504, ADA, or other relevant coordinator of the complaint, and, as appropriate, may request assistance from the coordinator in conducting the investigation.
- c. If the investigator, after interviewing the complaining party and/or the alleged victim and consulting with the board attorney, determines that the allegations submitted, even if factual, do not constitute discrimination or harassment as defined in this policy or policy 1730/4022/7231, Nondiscrimination on the Basis of Disabilities, school officials shall address the matter outside the scope of this policy. Information regarding the investigator's determination and the process for addressing the complaint will be provided to the complaining party.
- d. Any investigation conducted must be impartial, prompt, and thorough. The investigator shall investigate the facts and circumstances related to the allegation(s) of discrimination or harassment and give the alleged perpetrator an opportunity to respond to the allegations.

The investigator shall consider all the evidence collected, the context in which the alleged incidents occurred, the age and maturity of the parties, and any other relevant circumstances, and in consultation with the board attorney as appropriate, shall determine whether the alleged act(s) constitutes a violation of this policy, policy 1730/4022/7231,

Nondiscrimination on the Basis of Disabilities, and/or any other board policy or expected standard of student or employee behavior.

- e. The complaint and investigation will be kept confidential to the extent possible and consistent with law. Information may be shared only with individuals who need the information in order to investigate and address the complaint appropriately and those with a legal right to access the information.

2. Investigator's Findings

- a. If the investigator finds that discrimination occurred, the investigator shall take or recommend steps to address the discrimination.
- b. If the investigator finds that harassment occurred and created a hostile environment, the investigator shall assign or recommend appropriate disciplinary consequences for the perpetrator and/or take or recommend other reasonable measures to eliminate the hostile environment and prevent its recurrence.
- c. If the investigator finds that the conduct did not violate this policy but violated policy 4329/7311, Bullying and Harassing Behavior Prohibited, or another board policy or expected standard of conduct, the investigator shall assign or recommend discipline or other action appropriate to the violation.
- d. The investigator shall make a record of the evidence and findings of the investigation and the assigned or recommended discipline and/or other remedial action and provide a copy to the appropriate civil rights coordinator. If the investigator recommends a disciplinary consequence or remedial action that is beyond his or her authority, the investigator shall provide a copy of the record to the superintendent for further action.
- e. The investigator shall inform the alleged victim and alleged perpetrator of the outcome of the investigation.

3. Steps to Reasonably End Discrimination or Harassment

- a. The superintendent is responsible for taking or causing appropriate action to be taken in response to discrimination and harassment in violation of this policy. Appropriate action must include:
 - i. reasonable, timely, age-appropriate corrective action intended to end the discrimination or harassment and prevent it from recurring;
 - ii. as needed, reasonable steps to address the effects of the discrimination or harassment on the victim; and

- iii. as needed, reasonable steps to protect the victim from retaliation as a result of the complaint.
- b. Appropriate steps to end discrimination and harassment may include, but are not limited to, separating the parties, providing counseling for the parties, and/or taking disciplinary action against a perpetrator determined to have violated this policy. The superintendent may take non-punitive measures to end or prevent instances of discrimination or harassment regardless of whether any individual has been found responsible for the discrimination or harassment. The superintendent also may implement or direct the implementation of classroom-wide, school-wide, or school system-wide responses such as additional staff training, harassment prevention programs, and other measures reasonably calculated to end the behavior, eliminate a hostile environment and its effects if one has been created, and prevent recurrence of the behavior.
- c. The applicable civil rights coordinator shall encourage victims of discrimination and harassment to report any subsequent problems and may conduct follow-up inquiries as warranted to determine if there have been any new incidents of discrimination or harassment or any instances of retaliation.

E. APPEALS

- 1. If the alleged victim is dissatisfied with the outcome of the investigation, he or she may appeal the decision to the superintendent (unless the alleged perpetrator is the superintendent, in which case the alleged victim may appeal directly to the board in accordance with the next paragraph). The appeal must be submitted in writing within three school business days of receiving the notice of the outcome of the investigation. The superintendent may review the documents, conduct any further investigation necessary, or take any other steps the superintendent determines to be appropriate in order to respond to the complaint. The superintendent shall provide a written response within 10 days after receiving the appeal, unless further investigation is needed.
- 2. Student victims may appeal the superintendent's decision to the board in accordance with subsection E.5.a of policy 1740/4010, Student and Parent Grievance Procedure. Employees may appeal the superintendent's decision to the board in accordance with subsection E.4.a of policy 1750/7220, Grievance Procedure for Employees.
- 3. Any student or employee subject to discipline for violating this policy will be accorded all rights provided by law.

F. RETALIATION PROHIBITED

The board prohibits retaliation against any person for making a report or complaint of a violation of this policy, supporting someone for reporting or intending to report a violation of this policy, or participating in the investigation of a reported violation of this policy. No reprisals will be taken by the board against a complaining party or other individual who makes a good faith report of discrimination or harassment. Any person who is found to have engaged in retaliation will be subject to discipline, up to and including dismissal. Acts of retaliation may also be subject to policy 1760/7280, Prohibition Against Retaliation.

G. TRAINING AND PROGRAMS

The board directs the superintendent to establish training and other programs that are designed to prevent discrimination and harassment and to foster an environment of understanding and respect for all members of the school community. Information about the prohibited conduct and complaint procedure in this policy and those in policies 1725/4035/7236, Title IX Sexual Harassment – Prohibited Conduct and Reporting Process, and 1726/4036/7237, Title IX Sexual Harassment Grievance Process, must be included in the training plan.

As funds are available, the board will provide students, employees, and volunteers who have significant contact with students with additional training regarding the board’s efforts to address discrimination and harassment and will create programs to address these issues. The training or programs should (1) provide examples of behavior that constitutes discrimination or harassment; (2) teach employees to identify groups that may be the target of discrimination or harassment; and (3) train school employees to be alert to locations where such behavior may occur, including locations within school buildings, at school bus stops, on cell phones, and on the Internet.

H. RECORDS

The superintendent or designee shall maintain confidential records of complaints or reports of discrimination or harassment. The records must identify the names of all individuals accused of such offenses and the resolution of such complaints or reports. The superintendent also shall maintain records of training conducted and corrective action(s) or other steps taken by the school system to provide an environment free of discrimination and harassment.

I. CONTACTS FOR INQUIRIES

As needed, the board will enter into contracts for legal service to the school system, including both legal advice and representation in litigation. Any attorney retained by the board or the superintendent through school system funds represents the legal entity of the school system and not any individual board member or administrator.

The superintendent may consult with the board attorney as needed to carry out administrative operations and to protect the board and school system from liability. Other staff may consult with the board attorney only following procedures established by with prior approval from the superintendent or designee or as otherwise may be provided by procedures established by the superintendent. The board attorney shall be responsible for and authorized to address and resolve criminal bail bond and vehicle forfeiture matters in district and superior court.

The chairperson of the board normally will decide for board members when to seek legal advice or assistance on school matters. If an individual member of the board desires to consult directly with the attorney, the board member must notify the chairperson of the legal information to be sought. If it is determined that legal assistance is necessary and has not been sought previously for this matter, the board member will be directed to consult individually with the attorney. Questions raised by members of the board and the attorney's replies will be reported to all board members. The chairperson of a board committee may consult with the board attorney on issues that arise out of and in connection with the committee's work. The inquiry and response will be reported to all board members.

The board believes that time is a variable in the educational process and that ~~children-students~~ may need different amounts of instructional time in order to fulfill the educational goals and objectives of the board. The board also recognizes that the school day and school year should be planned in such a manner as to facilitate student learning and to permit an accurate assessment of student achievement in scheduled testing periods.

~~**Opening and Closing Dates and School Calendar for 2020-2021 School Year**~~

~~For the 2020-2021 school year, the school system will follow the school calendar requirements set forth in section 2.11.(b) of Session Law 2020-3, as amended by section 3.(b) of Session Law 2020-49.~~

A. INSTRUCTIONAL TIME

~~The board will approve the length of the school day, which may vary from school to school. The “instructional” day includes only those hours a student is assigned to a teacher for the primary purpose of instruction. Breaks in the instructional day for changing classes, homeroom, lunch, pep rallies and similar non-instructional activities are not part of the instructional day and are not considered instructional hours.~~

Interruptions of instructional time and time off task must be kept to a minimum. The principal is responsible for ensuring that instructional time is maintained and protected in the school schedule. Each teacher is responsible for ensuring optimal use of instructional time in his or her classes. School personnel are encouraged to seek creative means of reducing transitional time and scheduling non-instructional activities. A proposal for alternative scheduling of classes or other such strategies may be a part of a school improvement plan.

~~**B. SCHOOL DAY**~~

~~The length of the school day may vary from school to school if approved by the board of education. The “instructional” day includes only those hours a student is assigned to a teacher for the primary purpose of instruction. Breaks in the instructional day for changing classes, homeroom, lunch, pep rallies and similar non-instructional activities are not part of the instructional day and may not be counted towards the minimum instructional hours requirement established in Section D, below.~~

~~**C.B. SCHOOL CALENDAR OPENING AND CLOSING DATES**~~

~~The school board will establish a school calendar that is consistent with the requirements of G.S. 115C-84.2 and any other applicable legal requirements. Except for year-round schools or schools operating under a modified calendar, the opening date for students will be no earlier than the Monday closest to August 26, and the closing date for students will~~

~~be no later than the Friday closest to June 11.~~

The ~~school~~ board may offer supplemental or additional educational programs or activities outside the adopted school calendar.

1. Waiver of Opening or Closing Dates

Upon a showing of good cause, as defined by G.S. 115C-84.2(d), the board ~~will~~ may seek a waiver of the opening date from the State Board of Education.

The board will revise the closing date only if necessary to comply with the minimum requirements for instructional days or instructional time.

~~D. SCHOOL CALENDAR~~

~~The school calendar in all schools will be for 215 days and will provide for a minimum of 185 days or 1025 hours of instruction covering at least nine months. A school "month" is defined as 20 days of instruction. If school is closed early due to inclement weather, the day and the number of instructional hours originally scheduled may count towards the required minimum number of instructional days or hours. As funding permits, the board may pursue increasing the number of instructional hours or days, at least for those students who need more time to learn the curriculum.~~

2. Converting to a Year-Round Calendar

The board may initiate or review recommendations from the superintendent or a school improvement team for modifying ~~the a school's~~ traditional school calendar to a year-round calendar. The superintendent and individual schools are encouraged to obtain input from teachers and other personnel as well as from the community in developing proposals for modifying the school calendar to year-round. A year-round school may be included as a part of a school improvement plan.

~~Any calendar adopted by the board will be consistent with the following requirements.~~

- ~~1. The calendar will consist of 215 days and shall meet state requirements for the minimum instructional days and/or the minimum instructional hours.~~
- ~~2. At least 10 of the days on the calendar will be designated as annual vacation leave days.~~
- ~~3. The calendar will include the same or an equivalent number of legal holidays as those designated by the State Human Resources Commission for State employees, including Veteran's Day if it falls on a weekday.~~
- ~~4. School will not be scheduled on Sundays.~~

- ~~5. The total number of workdays for teachers employed for a 10-month term will not exceed 195 days.~~
- ~~6. The calendar will designate “instructional” days, when students must be present.~~
- ~~7. The remaining days will be scheduled by the board, in consultation with school principals, as “flexible” days, for use as teacher workdays, additional instructional days or other lawful purposes. Before scheduling these “flexible” days, each principal shall work with the school improvement team to determine the days to be scheduled and the purposes for which they should be scheduled.~~
- ~~8. Of the “flexible” days described in subsection D.7, the board will designate at least two days as protected days on which teachers may take accumulated vacation leave. All other “flexible” days may be designated as days on which teachers may take accumulated leave, but the board will give teachers at least 14 calendar days’ notice before requiring a teacher to work instead of taking vacation leave on any of these days. A teacher may elect to waive this notice requirement for one or more of these days.~~
- ~~9. The board may, due to school closings because of inclement weather or other reasons, use any of the “flexible” days designated in subsection D.7 above as make-up days for those instructional days that were missed. If necessary, these make-up days may be scheduled after the last day of student attendance. If either of the two protected days described in subsection D.8 above are scheduled as a make-up day, teachers may take accumulated vacation leave on the make-up day and will not be required to work.~~
- ~~10. If the school calendar requires students to attend on Memorial Day, each principal shall ensure that students are instructed on the significance of Memorial Day on that day. If students are not scheduled to attend school on Memorial Day, instruction on the significance of Memorial Day will be provided at another time.~~
- ~~11. If the school calendar requires students to attend school on September 17, which is Constitution Day and Citizenship Day, each principal shall ensure that an educational program about the United States Constitution is held in the school on that day. If students are not required to attend school on September 17, the principal shall ensure that such a program is held during the week preceding or following Constitution Day and Citizenship Day.~~
- ~~12. The month of November shall be designated “Veterans’ History Awareness Month.”~~

GRADUATION REQUIREMENTS

Policy Code: 3460

The board recognizes the importance of setting rigorous graduation requirements to help ensure that students are receiving an education that will prepare them to be career and college ready and productive members of society.

In order to graduate from high school, students must meet the following requirements:

1. successful completion of all course unit requirements mandated by the State Board of Education (see Section A);
2. successful completion of cardiopulmonary resuscitation instruction; and
3. successful completion of all other requirements mandated by the board, as provided in this policy.

Due to COVID-19, Thomasville City Schools will have flexibility in waiving local graduation requirements, while ensuring all state requirements for graduation are met, for students graduating in years 2021, 2022, and 2023.

The principal shall ensure that students and parents are aware of all graduation requirements. [Guidance School counseling](#) program staff shall assist students in selecting their high school courses to ensure that students are taking all of the required units and selecting electives consistent with their post-graduation plans. For students who have transferred to the school system during high school or who, for other reasons, have completed course work outside of the school system, the principal shall determine what course work will be applied as credit toward graduation. The principal shall consider the requirements of the Interstate Compact on Educational Opportunity for Military Children (G.S. 115C-407.5) and the requirements of subsection C.3 of this policy in determining the graduation requirements for children of military families.

A. COURSE UNITS REQUIRED

All students must fulfill the course unit requirements of the Future-Ready Core Course of Study, unless they are approved for the Future-Ready Occupational Course of Study. The tables ~~in subsection A.1 below lists~~ the course unit requirements for the Future-Ready Core Course of Study ~~and the Future-Ready Occupational Course of Study based on the student's year of entry into applicable to students who entered ninth grade for the first time during the 2013-14 school year or thereafter. Students who entered the ninth grade for the first time before the 2013-14 school year should consult their guidance counselor to determine applicable course unit requirements for graduation.~~

In accordance with policy 3101, Dual Enrollment, and State Board of Education requirements, students may earn high school credit for college courses completed. In addition, students may earn credit for certain high school courses in the Future-Ready Core

Course of Study completed while in middle school, as authorized by the State Board of Education. Students also have the opportunity to meet course unit requirements without completing the regular period of classroom instruction by demonstrating mastery of the course material in accordance with policy 3420, Student Promotion and Accountability, and State Board of Education requirements.

All awards of high school course credit must be consistent with State Board of Education requirements. Any inconsistency between board policy and State Board graduation requirements will be resolved by following the State Board requirements. While the board endeavors to keep its policy up to date with current State Board of Education graduation requirements, students should verify current requirements with their ~~guidance~~-school counselors when planning course schedules or making other decisions based on graduation requirements.

a. Waiver Requirements

Specific course work required for graduation will be waived if similar course work has been satisfactorily completed in another school system. If a waiver is not granted, school administrators shall provide the student with reasonable justification for the denial. If a waiver is not granted to a student who would qualify to graduate from the sending school, the superintendent or designee shall provide the student with an alternative means of acquiring the required course work so that the student may graduate on time.

b. Testing Requirements for Graduation

The superintendent shall accept the following in lieu of any local testing requirements for graduation: (1) the end-of-course exams required for graduation from the sending state; (2) national norm-referenced achievement tests; or (3) alternative testing. If these alternatives are not feasible for a student who has transferred in his or her senior year, subsection c below will apply.

c. Transfers During Senior Year

If a child of a military family who has transferred at the beginning of or during his or her senior year is ineligible to graduate from the school system after all of the alternatives listed above have been considered and the student meets the graduation requirements at his or her sending school, then school officials from the school system shall collaborate with the sending school system to ensure that the student will receive a diploma from the sending board of education.

4. Early Graduation

Graduation prior to that of one's class may be permitted on the basis of criteria approved by the board upon recommendation by the superintendent.

5. Graduation Certificates

Graduation certificates will be awarded to eligible students in accordance with the standards set forth in State Board policy.

Under special circumstances, the superintendent or superintendent's designee may alter individual student local course requirements for graduation. (Eligible students must have the minimum 22 credits as defined by the Future-Ready Core Course of Study. Examples of possible candidates would include those students participating in the SOAR Program or students transferring from a school district with year-long course offerings and fewer opportunities for course completion).

A. INVOLVEMENT OF PARENTS AND OTHERS

The counseling program is the shared responsibility of teachers, counselors, parents and community members, and should operate with the collaboration of all individuals involved in educating students, including those who assist children with special needs or students who are at risk of dropping out of school or not meeting performance expectations. Input from parents and students should be sought in accordance with the school's parental involvement plan~~for involvement of the community in school programs.~~ (See policy 1310/4002, Parental Involvement.)

Each year, the principal or designee shall inform parents of the guidance and counseling services available to students.
