Dec 21st and 22nd should be included in the holiday. I feel it is too close to the holidays for exams or to have class. I realize that gives extra time at the holidays, but who doesn't need extra time. If you wanted to move teacher workdays in that spot to give them time to prepare their rooms before the holidays so they can come back ready instead of the 3 extra days in Jan.

Can exams in 1st semester not be pushed back so all exams are the same week?

I love the extra work days after Winter Break. I don't like starting in early August.

Later start day for the first day of school.

Later school start date preferably August 24 student start date. No Saturday make up days.

Start school a week later.

I would like to have a different start date for the beginning of the school year for 2020-2021. Winter break holiday needs to be reconsidered. I TRULY DISAGREE WITH GRADUATION BEING ON A FRIDAY!! My daughter will be graduating and family and friends would love to share in this special day. A Saturday morning graduation is much more convenient for all involved.

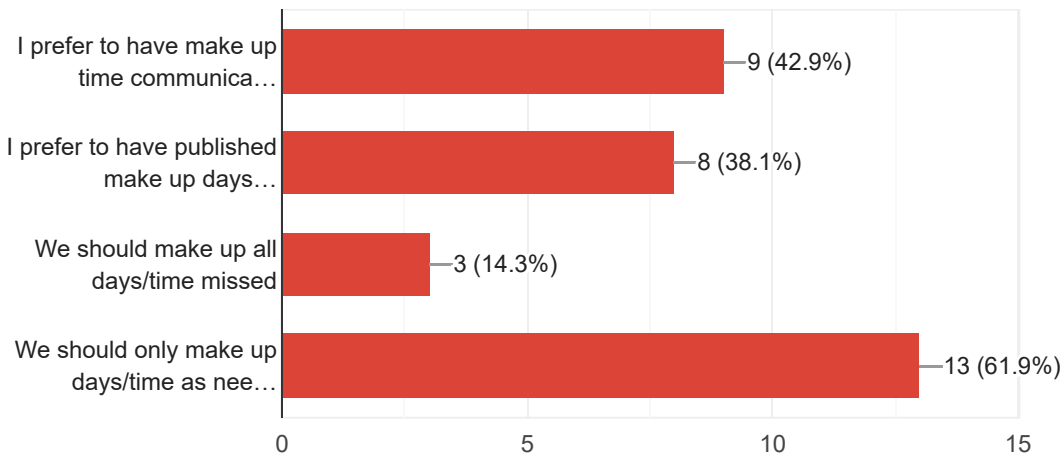

Make Sept. 18th & Dec. 18th full days. Make Dec. 21 an optional work day, Dec. 22 annual leave, Jan. 4 & 5 required work days, Jan. 6 regular school day. This would make break for students Dec. 21-Jan.5 for staff Dec. 22 (With the option of Dec. 21) through Jan. 1. if additional days are needed before break then have the students start two days earlier and add those two work days to the end of the school year. I think it makes a big difference to have two full weeks with three weekends vs. the way it is split up on the current calendar. Change make up days from 12/19 & 11/25 to 12/19 & 11/14. I also think if you can do the High School graduation the night of May 28th you will have a better turn out.

I would personally like to see this earlier return evolve into year round school for our students. TCS students are not out travelling, or having enriching summer break. Many are using this time to find trouble that is easy to find with nothing structured to keep them busy.

Great to see that we will do even better by our students to enable early graduates to enroll in college beginning the 2nd semester (right after the holidays)

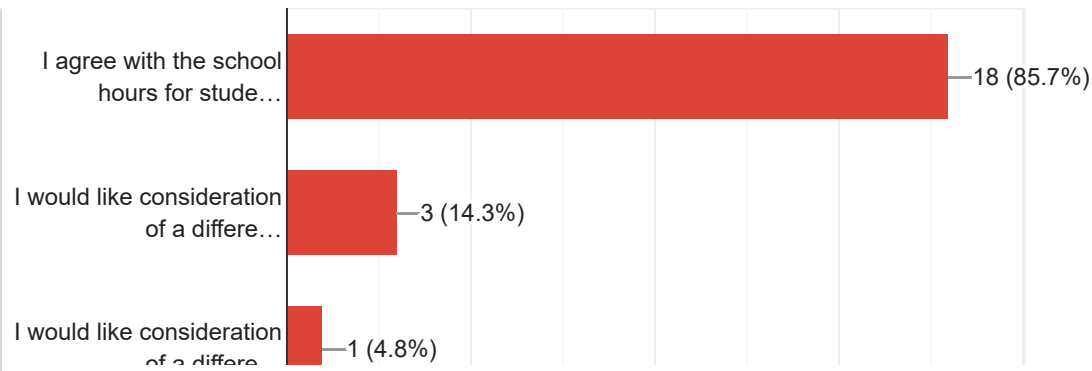

MAKE-UP TIME DUE TO INCLEMENT WEATHER: (please check all that apply)

Earlier start prior to 7:40 and earlier end time prior to 2:40.

I would like communication of what happens with extra hours not used for make up.

10 minute earlier day for all schools and 10 minute earlier dismissal.

I think all start times should be pushed back until at least 8:00 with middle and high starting closer to 9:00. It is ridiculous for our smallest students to be standing in the dark and cold waiting for school buses in the dead of winter. Research shows that adolescents do better in school with later start times.

I like the calendar and wish we could have this type start/mid-term/end dates as usual business. This calendar reflects that learning is a priority - not merely clocking time to meet general statutes.

800am-315pm is working for THS; let us continue
